Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER) which provides key information on the 2022-2023 education process for Cleveland Elementary School. The AER addresses the complex reporting information required by federal law and state laws. The school's report contains information about student assessment, accountability and teacher quality. If you have any questions about the AER, please contact Shalonda Owens, Principal of Cleveland Elementary, for assistance.

The AER is available for you to review electronically by visiting the following web site [Cleveland Website](#) or you may review a copy by contacting Cleveland Elementary School office.

For the 2023-2024 school year, schools were identified based on previous years' performance using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that had at least one underperforming student subgroup in 2022-2023. An Additional Targeted Support (ATS) school is one that had a student subgroup performing at the same level as the lowest 5% of all schools in the state in 2021-2022. A Comprehensive Support and Improvement (CSI) school is one whose performance was in the lowest 5% of all schools in the state or had a graduation rate at or below 67% in 2021-2022. Some schools are not identified with any of those labels. In these cases, no label is given. Our school has not been given one of these labels.

The AER has two major sections to it that are required by state law. The information contained in the first section was compiled by district staff. It presents relevant information about our district, our academic programs, school improvement efforts, two years of results on district developed assessments and nationally norm referenced assessments. It also includes the district's parent involvement policy and specialized programs.

The second section of the report contains information provided by the Michigan Department of Education and is required to be presented in MDE format. Based on this data, our school has identified underperforming subgroups of students, including economically disadvantaged students for whom additional intervention and support is needed to increase their proficiency and to close the achievement gap in targeted areas.

To accelerate student achievement, Cleveland Elementary has put in place a multi-tiered system of support that provides supplemental instruction to our most at-risk students through Title I Literacy support groups throughout the school year. This includes the use of research-based interventions targeting specific students with specific needs. Kindergarten, first and second grade teachers have been trained and has implemented Orton- Gillingham, a multisensory phonic technique for remedial reading instruction. Third and fourth grade students are being trained in Morphology which is an extension of Orton- Gillingham. All teachers are using integrated units of study that will incorporate reading, writing, science and social studies. Teachers also engage in the PLC process which included the analysis of common assessments to determine how to best meet the academic needs of all students. Our intent is to take a close examination of our instructional practices and Tier I instruction while continuously using student achievement data to provide the timely interventions and enrichment opportunities to improve the academic achievement of all students. These initiatives are intended to accelerate the student achievement of Cleveland subgroups, including the state's Bottom 30%, that are not meeting our school's proficiency targets.

State law requires that we also report additional information as found on the following pages.

Our collaborative efforts positively impact our school's success and student achievement as evidenced by the steady reduction of students on Individualized Reading Intervention Plans.

Sincerely,

Dr. Owens
Cleveland Principal
